

# Maryland 2010 Census Hard to Count Areas in 2002 Legislative District 40

As Ordered by the Court of Appeals June 21, 2002 (Amended July 1, 2002)  
Baltimore City

**Hard to Count Areas**

- Very High
- High
- Medium
- Low
- Very Low

- 2002 Legislative District
- County Boundaries

The HTC map classifies census tracts by how hard or easy they will be to count in the upcoming census. Tracts which are projected to be the most difficult to count had low mail back rates in the prior census and/or have other demographic and socioeconomic factors associated with being difficult to count.
